

Reactive Oxygen Species (ROS) Fluorometric Assay Kit (Green)

Catlog Number: CMAK-YJL-0047

• Basic Information

Size: 96 T

Sample Type: Tissues; cells

Detection Instrument: Fluorescence microplate reader (Ex/Em=488 nm/525 nm),
Flow cytometer or Fluorescence microscope

Research Field: Oxidative stress; Metabolic diseases; Ferroptosis; Energy
metabolism

Sample Size: 200-300 μ L

Index Abbreviation: ROS

Detection Time: 1 h

Intended Use: For research use only.

• Storage & Transportation

This product can be stored at 2-8°C/-20°C, protected from light for 6 months.
Please refer to the instructions for the storage conditions of the specific reagent
components.

Shelf Life: 6 months
